

Name: _____

Next Science Teacher: _____

Directions: Click on the link for the article “Climate Change: Global Sea Level. Read the article and complete the following assignment on loose leaf paper. The assignment is due the first day of school which is **Monday, August 26, 2024** when you return to school.

[Link to article](#)

1. Find meanings for words you don't know (list at least 5):

Word	Definition

2. How do scientists measure sea level? How do we know it is changing?
3. What are 2 reasons why the sea level is rising?
4. List 2 or more consequences of the rising sea level in communities across the world.
5. Give 2 suggestions for how to ‘solve’ the issues raised in the article. The suggestions don't need to **work**, but they need to be **yours!**
